

THE IMPRESSION GUYS

a six episode original half-hour series
on YouTube, produced by SoulPancake
starring Ross Marquand and I,
launched in February.

Since then we've gotten some pretty wonderful responses!

Here are some viewer comments:

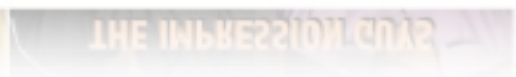

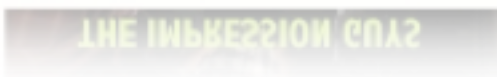

This is absolutely fantastic. Watched till the end, and I plan on watching more. Awesome stuff!

I really love this series! It really speaks to us actors/impressionists who want to be taken seriously and it has a good message which is RARE in this business. Thank you for making QUALITY entertainment and inspiring us all!

OK Guys, You GOT Me! When I saw the 23+ minute length of the video, I though "I won't be able to watch the whole thing". But, I couldn't stop. I had to abandon my own agenda and watch it all.

This is now my favorite show... so well done :)

Just watched all 3 episodes back to back. This is the best thing on YouTube!

And we've had some nice press mentions, too:

“Can it work? Well, if the quality, humor and inventiveness of the pilot for The Impression Guys is any indication, TV may have just been changed forever.”

–Tom Rose, Examiner.com

“The Impression Guys is the best online-video series of 2014.”

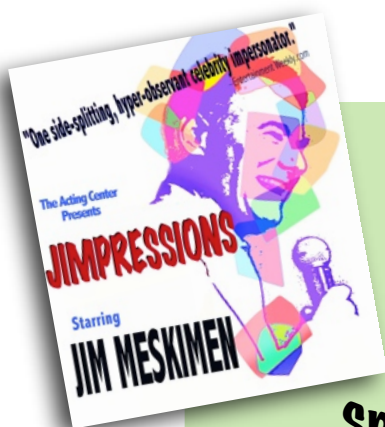

– Kevin Nalty, Will Video For Food
